

# JOHN L. FRATTARELLI, M.D.

1401 S. Beretania St., Suite 250, Honolulu, HI 96814 | (808) 545-2800 | [IVFcenterHawaii.com](http://IVFcenterHawaii.com)

**DR. JOHN FRATTARELLI, FOUNDER AND DIRECTOR FOR THE FERTILITY INSTITUTE OF HAWAII** and a recognized expert on reproduction, is one of only a few board-certified, fellowship-trained reproductive endocrinologists in Hawai'i. As the only fertility specialist in Hawai'i (and one of just a few nationwide) credentialed as a high complex laboratory director, he can exercise singular oversight of all activities within the IVF laboratory. With more than 20 years of experience evaluating and treating couples with fertility and reproductive disorders, and participating in more than 25,000 fertility treatment cycles resulting in more than 11,000 babies, he is regarded as one of the most experienced fertility physicians in the country.

Offering an onsite, state-of-the-art IVF laboratory built in 2011; the Fertility Institute of Hawaii can provide advanced fertility treatments utilizing cutting-edge technology. As a world-renowned premier fertility center, the Institute is dedicated to optimizing each patient's treatment outcome. The staff offer patients advanced protocols and individualized and compassionate care that result in some of the best pregnancy rates in the world. Dr. Frattarelli would like to express his sincere gratitude to his peers for the recognition and receipt of this Top Doctors nomination.

### ADVICE TO PATIENTS

Fertility problems are very common, affecting 1 in 6 couples. If it is taking longer than six months to conceive, or if you think there might be a problem, seek help. A simple consultation and evaluation may be all that is needed.
